Education in Chemistry - Index 1990

Subject

A-level, assessment, 137
A-level, industrial experiment, 71
Aluminium, discovery, 36
Aluminium, properties, 38
Aluminium, reactions, 38
Anti-tumour treatment, 78
Arrhenius equation, 111
Art of lecturing, 156
ASE, Lancaster, 30C
Audiovisual reviews, 89
Azo dyes, historical, 133

BA, Sheffield, 2C
Balanced science, 14, 35L
BAYSDAY, 63C
Biennial conference on chemical education, 150C
Binary ionogenic equilibria, 75
Book reviews
  Analytical chemistry, 115, 146, 171
  Biotechnology, 87, 115
  CASE project, 56
  Chemical demonstrations, 26
  Colloid science, 3, 144
  Computers in the lab, 25
  Electrochemistry, 145
  Electronics, 88
  Elements, 26
  Environmental chemistry, 144
  Food science, 26
  Forensic, 115
  GCSE general texts, 25, 56, 87, 88, 144
  GCSE practical texts, 25, 87, 88, 145, 146
  GCSE problem-solving, 90, 115
  General chemistry, 90
  Geology, 144
  Infotechnology, 115
  Inorganic chemistry, 172
  Materials, 171
  National Curriculum texts, 89
  Organic chemistry, 87, 89
  Organometallics, 56
  Photochemistry, 145
  Physics, 26
  SATIS 16-19 science, 145
  Solid state, 89, 172
  Sport science, 88
  Symmetry, 56
  Technician texts, 115
Bragg, Sir Lawrence, 156
Bucket chemistry, 123C
Bunsen burner, an alternative, 153

Careers, drug design, 130
Careers, information technology, 33
ChemSource, 2C
Chemical additives, school project, 122C
Chemical competitions, 105, 124C
Chemistry sets, 98C
Cobaloximes, post A-level practical, 45
Computer assisted learning, 67C
Computer graphics, 17
Concentration units, 100L, 129L
COSHH regulations, schools, 100L, 128L

DES, news snippets, 96C, 126C, 153C
Distillates
  Acid rain, 23
  Artificial enzymes, 22
  Buckminsterfullerene, 86
  Chemical innovations, 23
  Nobel gases, 23
  Organometallic catalysts, 85
  Oxygen detector, 24
  Paper chemistry, 85
  Solar energy, 173
  Solid electrolytes, 85
  Solid state, 174
DNA, 66C
Drug research, 130

Edinburgh science festival, 97C
Edwards, David, 125C
Electrical double layer, 20
Electrochemistry, 48
Entropy, A-level, 41
Environmental issues, 23, 71, 160
Eucarvone, 166
Europe, post-1992, 94C
Eyring equation, 114

Fermentation, alcohol, 7
Footballene, 100L

GCSE, balanced science, 14
GCSE, industrial experiment, 69
GCSE, single sciences, 5L
Government funding policy, 62C
Gran plots, 109

Higher education, funding, 62C
History of chemistry, 36, 133, 156
Human genome project, 2C
Hydrogen molecule ion, 17

ICI, educational consultant, 64C
Industrial – school links, 71, 95C, 122C
Industrial waste, school project, 160
InfoChem
  Aluminium, no 2
  Alzheimer's disease, no 2
  Catalysts, no 1, no 5
  CFCs, no 6
  Conservation, no 4
  Forensic chemistry, no 3
  Ozone hole, no 6
  Paper-making, no 4
  Petrol engines, no 1
  Preservation, wood, paper, no 4
  Unleaded petrol, no 1
Information technology, 33C
Interactive teaching videos, 124C
Ionisation energies, 135

Kipping-Grignard process, 102

Laboratory manuals, investigation, 9
Lecture, delivery of, 156
Low alcoholic beers, 6

Merocyanine dyes, 79
Microcomputers, use of
  electron density diagrams, 18
  molecular orbital theory, 17
  Russell-Saunders' terms, 83
  Semi-automatic pH titration, 139
  Simulation of electrical double layer, 20
Molecular orbital theory, 17

Naphthalene sulphonation, 73
National Curriculum, assessment, 124C
National Curriculum, course work, 122
Natural product chemistry, 166
New style courses, 5L, 35L
Ninhydrin, undergraduate preparation, 40

Olympiad, competition, 151C
Orbital energies, 68L
Organic intermediates, undergraduate experiment, 169
OU TV guide, 58
Oxford University, entrance, 95C
Oxidation numbers, organic, 141

Part-time qualifications, 175
Periodic Table, 68L, 128L
pH phenomena, 139
Phase equilibrium, 51
Photoradiation therapy, 78
Primary science, 124C
Problem-solving, quantitative model, 163
Public understanding of science, 30C, 156

Research in the sixthform, 31C
Rochow process, 102
Roussin, Francois-Zacharie (1827-94), 133
Royal Institution, 156
RSC Annual Congress, Belfast, 94C
RSC Chemical Education Award, 97C, 125C
RSC History Competition, 124C
RSC qualifications, 175
RSC research fund, 123C
RSC single science, 63C
Russell-Saunders' terms, 83

Salbutamol, anti-asthmatic, 130
Salters' A-level chemistry, 3C, 95C
Salters' GCSE science, 14
SI units, 5L, 100L, 128L
SIFT, 53, 116
Silicone rubbers, 101
Single sciences, 5L, 63C
Singlet oxygen, 77
Sixthform research, 31C
Software reviews, 90, 171
Solubility, 34C

Teaching strategies, electrochemistry, 48
Teaching strategies, entropy, 41
Teaching strategies, problem-solving, 163
Thermodynamics, 127C
Titanium (IV) oxide production, 69
Transition state theory, 111

Undergraduate experiment, 9, 12, 73, 107
Universities and A-levels, 35L, 94C, 95C
University chemistry, 62C
US chemical education, 150C

Vapour-liquid equilibrium, 51
Video, competition
Videos, for National Curriculum, 124C

Water cycle, briefing paper, 31C
Women into technology, 33C

X-ray crystallography, 156
